Dear Parents,

The total class period is 1 ½ hours. This period would be further divided into 3 sessions.

- The first 15 minutes would be the introduction of the class, where parents would be welcome to listen, as it would be easier to understand the curriculum of the week and assist the children.
- The second session, about 1 hour, is the class period for children to complete their artwork. During this session, parents would be asked to leave the classroom.
- The final session, about 15 minutes, would be the critique and appreciation of the children's artwork. Parents would be strongly encouraged to accompany the children to enjoy the artwork. This period would be a great time to communicate with the teacher (s).

Thanks for your cooperation and support. We would like to provide the finest art education for your children.
